

Congratulations on Becoming an Apprentice!

Photo by John Sing, Photographer, Fanshawe College

You'll need good math and communication skills for your work and your studies.

Are you prepared?

There's help available to build your skills so you can:

- Prepare for your in-school studies
- Succeed in your in-school program
- Pass your Certification of Qualification exam

Don't be afraid to ask for help!

**EMPLOYMENT
ONTARIO**

Help you succeed. We help you find it.

This Employment Ontario Project is funded by the Government of Ontario

Industrial Sector

Are You Ready for School?

Check to see.

Try answering these questions...

1. Gary answered all 60 questions on his exam. If he scores 82%, how many questions did he get right?
A. 49 **B.** 37 **C.** 41 **D.** 39
2. Pick the word that means the same as defective component.
A. interesting **B.** good
C. suitable **D.** faulty
3. A tool and die maker finds that 12 out of 192 parts are defective. What is the ratio of defective to non-defective parts?
4. How many words are spelled incorrectly in the next sentence? Maintenance schedules for production machines are very important and regular attention is needed to replace worn parts.

Did you know?
You need at least 70% to pass a trade exam.

There are **FREE** programs in your community to build your math and communication skills so you can be successful.

Programs are:

- Available at night, during the day and online
- Flexible to suit your individual needs
